- Bassinets: Number of newborn infant bassinets set up and staffed for use. Does not include isolets or neonatal intensive care units.
- Births: Does not include transfers from other institutions or still births.
- Newborn Days does not appear to include Neonatal Days.
- Neonatal beds include Levels II and III, but not Bassinets.
- At Norton-Kosair and perhaps elsewhere, Level II patients may be cared for in Level III beds. Neonatal days based on patient type.
- Bassinets are included in a hospital's overall number of beds.
- Uncertainty exists about how bassinets in the mother's room are counted.
