

# Partners for the Future

University of Louisville Hospital  
James Graham Brown Cancer Center  
Part of **UL** Health Care

  
**KentuckyOne Health™**

**UNIVERSITY OF  
LOUISVILLE**

New **collaboration** secures University Medical Center's **financial future** for the long term, enabling it to **enhance** and **expand** our core mission as an **innovative** academic medical center and a **vital** regional **safety net** hospital that **provides** the **highest level of care** to all patients.

KentuckyOne will invest  
**\$1.39 billion**  
over 20 years.

Will enhance our charity mission and community involvement, including care for the poor, at-risk and uninsured.

Forms a Kentucky-wide, integrated physician-led network with more than  
**200 locations** combined.

UMC's clinical policies for all care and treatments, including for women's health, will stay the same.

## Clinical

**5-year plan** to create statewide cancer, trauma, cardiovascular and physical rehabilitation service lines.

**Solidifies** Louisville as a national destination for transplants and ventricular assist devices (VADs).

**\$70 million** for critically needed IT infrastructure upgrades.

## Academic

**\$95 million** dedicated to academic programs at University Medical Center.

Continues 60-plus year tradition of **educating** healthcare professionals.

**Enhances** Downtown Louisville as academic destination.

## Research

**Translates research** into tomorrow's **treatments** and **cures**.

Expands research efforts **throughout the state**.

KentuckyOne to provide **\$3 million annually** dedicated to research projects.
